

ASK-E24X10

CORE SWITCH

High-Performance 24 SFP & 4 SFP Port Switch
with Combo Group

Overview

The ASK-E24X10 is a versatile, high-performance network switch featuring 24 SFP ports and 4 SFP+ ports for 10G modules, along with a flexible combo group to meet diverse connectivity needs.

Key Features

- 20 SFP Ports: Standard SFP ports for seamless integration with fiber networks.
- 4 SFP+ Ports: Enhanced ports supporting 10G modules for high-speed data transfer.
- 4 Combo Ports: Flexible connectivity allowing a choice between SFP or RJ45 interfaces. These combo ports can be software-controlled, enabling port selection via scripting to activate any four of the eight connected ports as needed.

Design & Functionality

- 1U Rackmount Form Factor: Compact and robust design ideal for enterprise environments.
- Dual Power Supplies: Includes two 100-240V power supplies with failover functionality to ensure uninterrupted operation.
- RJ45 Console Port: Simplifies management and debugging for enhanced system control.

Key Advantages:

- Layer 2 non-blocking switching
- 16K host table, 4K VLANs (IEEE 802.1Q)
- Port isolation, security, storm control
- Port mirroring (in/out)
- STP / RSTP / MSTP
- Access Control List (ACL)
- MikroTik discovery
- SNMP management
- Jumbo frames (10K)
- IGMP snooping

Why Choose Aeroskop Rhino?

- 20 SFP ports
- 4 ETH/SFP combo ports
- 4 SFP+ ports
- Non-Blocking throughput: 64 Gbps
- Switching capacity: 128 Gbps
- Forwarding rate: 95.2 Mpps
- RJ45 serial console port
- Dual PSU
- Maximum power consumption: 43 W
- Temperature based fan control
- 1U rackmount

COMPONENTS	SPECIFICATION
Product mode	ASK-E24X10
CPU	98DX3236A1 800 MHz
RAM	512 MB
Storage type	Flash
Storage size	16 MB
Switch chip model	98DX3236A1
SFP cages	20
SFP+ cages	4
Ethernet/SFP Combo ports	4
Operating system	SwOS / RouterOS (Dual boot)
Supported input voltage	100 – 240 V
Dimensions	443 × 194 × 44 mm
Operating temperature	–20°C ~ +60°C tested
Max power consumption	43 W
Serial port	RJ45
License level	5
