

# AEROSKOP WORKSTATION ASK-WS-X16

## “Power, Precision, Performance-Redefined for Surveillance”

AEROSKOP ASK-WS-X16 is a robust workstation built for mission-critical video surveillance, real-time analytics, and multi-monitor visualization. Powered by the Intel® Xeon® Silver 4216 processor, it delivers strong multi-threaded performance and enterprise-grade reliability for managing large video matrices, decoding multiple streams, and driving advanced VMS dashboards. Designed with a professional-grade GPU supporting up to four 4K displays, it ensures immersive command and control operations with 24/7 stability.

Ideal for: Control rooms, SOCs, traffic management, and high-density monitoring applications.

## ASK-WS-X16

| COMPONENTS       | SPECIFICATION                                             |
|------------------|-----------------------------------------------------------|
| CPU              | INTEL® Xeon® Silver 4216, 16-core processor               |
| RAM              | 128 GB (2 x 32 GB) DDR4 Max Support 1024 GB, DDR4 ECC RAM |
| SSD (OS AND VMS) | 1 X M2 NVME – 2000 GB                                     |
| HDD BAYS         | 4x3.5" HDD bays, compatible with 2.5"HDD/SDD              |
| Ethernet         | 4+1 RJ45 Gigabit Ethernet LAN port                        |
| I/O Interface    | HDMI, VGA, 8x USB3.2, Line-in, Line-out, Mic-in           |
| Expansion Slots  | 2xPCIE 16X, 3x PCIE 8X, 1x4X                              |
| Tower type       | Dimensions : 650mm(L)×437.5mm(W)×176.5mm(H)               |
| PSU form factor  | 800 WATSS, standard ATX power supply                      |
| Graphics         | NVIDIA RTX A2000, 8GB, 4 mDP Ports                        |
| Connector        | Two front accessible USB2.0 ports.                        |
| Front Panel      | Power LED*1, Reset*1, Power SW*1, HDD LED*1, NIC LED*2*1  |
| Os               | Windows 11                                                |
|                  |                                                           |
